WELLNESS SOCKS

Rebalance. Rejuvenate. Recharge.

INSPIRED BY TCM WISDOM

Rooted in the principles of Traditional Chinese Medicine (TCM), our feet are home to numerous acupoints believed to correspond with vital organs and energy channels (meridians). Stimulating these points may help support overall well-being.

iWAVE socks are engineered to support this philosophy through modern innovation and advanced fabric technology.

Graphene Far-Infrared
Negative Ions

Far-Infrared & Negative Ion Fibers

Promotes blood circulation

Increases metabolism

Promotes microcirculation

Unblocks meridians

Expels damp-cold in the body

Relieves fatigue and pain

Negative Ion Antibacterial **>99%**

Graphene Fiber Infusion

Excellent thermal conductivity and antibacterial properties, helps keep your feet warm, fresh, and hygienic.

CERTIFIED QUALITY

Manufactured in a facility certified by the International Graphene Product Certification Center (IGCC) for single-layer graphene oxide.

Washing Instructions

Wash at or below 30°C

Do not bleach

Hang Dry

Do not dry clean

Hand wash for best durability

Home use only

Benefits of FIR and Negative Ion socks

Far Infrared (FIR) and Negative Ion socks combine two popular wellness technologies:

- **FIR (Far Infrared Rays):** Gentle heat energy that penetrates deep into tissues
- **Negative Ions:** Charged particles believed to promote relaxation, detoxification, and cellular health

These socks are often infused with minerals like **tourmaline**, **germanium**, or **bio-ceramics**, which are claimed to emit both FIR and negative ions naturally.

✅ Claimed Health Benefits of FIR + Negative Ion Socks

◆ 1. Improved Blood Circulation

- **FIR benefit:** Gently warms tissues, dilating capillaries and boosting blood flow.
- **Negative ion effect:** Enhances oxygen delivery to cells by supporting red blood cell function.
- ✅ **Helpful for:**
 - Cold feet
 - Poor peripheral circulation (e.g. diabetics)
 - Tired legs from standing/sitting long hours

◆ 2. Pain Relief and Anti-Inflammation

- FIR can penetrate up to 1.5 inches into muscles, reducing:
 - **Inflammation**
 - **Aching feet**
 - **Joint stiffness**
- May also support mild relief from:
 - Plantar fasciitis
 - Arthritis
 - Neuropathy symptoms

◆ 3. Fatigue Reduction and Energy Boost

- Negative ions may improve **cellular energy (ATP) production** and reduce **oxidative stress**.
- **Result:**
- Less foot fatigue
- Enhanced leg vitality
- Lightness or “energized” feeling

◆ 4. Odor Control & Antibacterial Support

- Tourmaline and similar minerals have natural **antibacterial** and **deodorizing** properties.
- Keeps feet fresher, especially in:
- Hot/humid climates
- Enclosed shoes or boots
- During sports or long walks

◆ 5. Improved Sleep and Relaxation

- Both FIR and negative ions help reduce **stress hormones (e.g. cortisol)** and promote **serotonin**.
- Indirectly promotes better sleep, especially when worn before bedtime.

◆ 6. Skin and Cell Regeneration

- FIR may improve **skin microcirculation** and detox pathways.
- Some users report smoother, healthier feet after prolonged use.

👣 **Best Suited For:**

- People with **cold or numb feet**
- Elderly or diabetic users (as **adjunct support**)
- Athletes or workers on their feet all day
- Those seeking **natural recovery aids** after exercise or travel

MOBILE STOCKIST

BUY 10 UNITS OF IDOC AT THE PRICE OF BETWEEN USD3900 TO USD4000.

RECEIVE 1650 REGISTER WALLET (RW) TO REGISTER 5 GOLD PACKAGES (ONLY REQUIRES 1500).
MOBILE STOCKIST CAN BUY ADDITIONAL RW AND WILL RECEIVE 10% EXTRA RW.

BENEFIT FOR MOBILE STOCKIST IS TO EARN AROUND 50% PROFIT.
